

Fabric Christmas Tree Ornaments

Supplies:

- ruler
- rotary cutter
- fabric
- cinnamon sticks
- ribbon
- hot glue sticks
- glue gun
- scissors
- buttons

1. Cut your scrap fabric into one inch strips. Once you have your strips cut, you'll begin tying them along the cinnamon sticks.

2. Next, using your scissors or rotary, cut the sides of your strips to form a tree shape. Start at the bottom and cut up at an angle.

3. Continue tying fabric strips on your cinnamon sticks until you have them all finished and trimmed.

- Using your glue gun, attach a small loop of ribbon to the back of your tree ornament.

- Now, use your glue gun to attach button stars to the tops of your trees.

- Hang your fabric tree ornaments on your Christmas tree!

Merry Christmas friends!
